ANABOLIC EXPERT, WILLIAM LLEWELLYN DISCOVERS SECRET TO “INCREASING MUSCLE MASS IN HUMANS”

U.S. PATENT #6,841,573

X-Factor™ is becoming the single greatest anabolic innovation of the new century, with a contribution to human muscle building so gigantic it is being considered by scientists to be an epic discovery! **X-Factor™** is the product of Anabolic Expert, William Llewellyn, and the mysterious key to muscle tissue's anabolic vault. It is so significant, so core, so completely primary to anabolic amplification, that no serious bodybuilder can afford to train without it. No matter if you are a beginner or professional bodybuilder, **X-Factor™** is **absolutely essential** to developing massive muscle and unlocking your genetic potential. This anabolic science is so unique and incredible that the U.S. Patent office agreed. Molecular Nutrition's anabolic **X-Factor™** is patented for **Increasing Muscle Mass In Humans!** Yeah, this is big time!

What Llewellyn discovered, and all serious bodybuilders need to know, is that in every muscle cell is a biochemical that is released after intense exercise. This newly discovered super-anabolic is called **arachidonic acid**, now identified as the **X-Factor™**. Released during intense muscular contractions, this core biochemical initiates the anabolic cascade that results with serious gains in muscle mass.

Initial real-life trials have shown up to 12 lbs of rock solid muscle after just one 50-day cycle.

Increasing the intramuscular reserve of **X-Factor™** strengthens the tissue rebuilding process, supporting androgen steroidal activity, protein synthesis, IGF-1 signaling, nitric oxide release, and cellular metabolism, the anabolic processes responsible for muscle growth. **X-Factor™** is the key to the anabolic vault that creates intense muscle blasting pumps and explosive growth!

X-Factor™ is the **ONLY** patented super anabolic that uniquely amplifies a cascade of intracellular muscle building events. **X-Factor™**...

- ✗ Increased Androgen Receptors - *Amplifying the Anabolic Actions of Testosterone!*
- ✗ Increased Protein Synthesis - *Real Gains of 1-2 lbs. of Solid Muscle Per Week!*
- ✗ Increased Workout Productivity - *Intensified Residual Soreness!*
- ✗ Increased Pumps - *Greater Nutrient Availability to the Muscles*
- ✗ Increased IGF-1 Signaling - *Supports Muscle Satellite Cell Proliferation*
- ✗ Maximum Muscle-Mass Retention - *No Post-cycle Hormonal Crash That Robs Your Gains!*
- ✗ Significant Fat Loss - *Gain Muscle AND Lose Fat at the Same Time!*
- ✗ Comfortable and Effective - *No Hair loss, Libido Issues, or Acne!*

Here is what some real-life trial users are said about X-Factor™ after just one 50 day cycle...

Joel T. (WA) - "X-Factor is certainly the best, most effective supplement I have ever used... EVER."

Andrew P. (PA) - "This stuff has blown me away."

Eric S. (WI) - "I have to say this is the BEST supplement I have used so far in my years of lifting."

Cody K. (NV) - "Pumps have been unreal, better than any NO2 I have taken."

Rod H. (WI) - "...12lbs gain of lean muscle and body fat 8%. As the trainer in the gym said, these results are incredible."

Austin M. (MD) - "Pumps during workouts were amazing, freaking amazing."

Noel B. (CA) - "I started with my bodyweight of 193lbs. Well, after 8 weeks I now weigh 204lbs. that's an 11 lb increase. ...I love it."

X-Factor™ is for every serious bodybuilder who knows the awesome feeling of training in the zone. Banging off reps with burning muscles pumped so hard you swear your skin is going to explode. Yeah, being in the zone is a big time thrill and for sure the fastest way to build freakish muscle. But, the zone is nothing without the "X". The zone is how you train, the pain is what you feel, and the **X-Factor™** is how you grow! To reach your potential you need to add **X-Factor™** to your training and supplement program. **Then, and only then, will you begin to experience muscle-building technology so revolutionary it's patented.**

Get on a 50 day cycle of X-Factor™ and start turning your "X" potential into 8, 10, or even 12 lbs of new muscle mass! Your muscles can't wait, so call today 1-888-828-8008 or log on to www.anabolicX-Factor.com
