

Presents SCORPIONS

Scorpions are a hard rock band from Hannover, Germany, best known for their 1984 rock anthem “Rock You Like a Hurricane” and their singles “Wind of Change”, “No One Like You”, “Still Loving You”, and “Send Me an Angel”. The band has sold over 100 million records worldwide. Along with Metallica, Iron Maiden, AC/DC, KISS, Aerosmith, Ozzy Osbourne and Deep Purple they are one of the most successful hard rock/heavy metal acts.

The “Scorps” known to metal heads of the time, reminisce more of Lonesome Crow · Fly to the Rainbow · In Trance · Virgin Killer · Taken by Force · Lovedrive · Animal Magnetism. Only after the commercial success of “Blackout” did they start to get heavily pushed into the mainstream media of the U.S. market by Mercury records. Wind of change and Rock you like a Hurricane pushed The Scorps into the Limelight because of the heavy MTV push to please young rockers of the time.

Rock you like a Hurricane was overplayed by MTV because RCA wouldn't let MTV have any of Scorpions old videos. MTV was the no mans land. They had no money to buy a big video collection of any artists and the owners of MTV got no money/backing of any big studio.

The consensus of the time thought MTV wouldn't hold a dime to to the already popular television/music shows of the time “Midnight Special, Hee Haw, Soul Train and American Bandstand” and would fade away into the history books.
