

European Bifurcation Club

Bulgarian Bifurcation Course

13-14 January, 2012

Kempinski Hotel Zografski

Sofia, Bulgaria

Bulgarian Society
of Interventional
Cardiology

Bulgarian Society
of Cardiology

Dear colleagues,

On behalf of the Bulgarian Society of Interventional Cardiology and the Bulgarian Society of Cardiology it is my pleasure to welcome you to the first Bulgarian Bifurcation Course, 13-14 January 2012, in Sofia, Bulgaria, where specialists from European countries will gather seeking to grow in the field of Interventional Cardiology.

The Bulgarian Bifurcation Course's mission is to enhance the quality, efficiency, and effectiveness of health services in the field of Interventional Cardiology in the Balkan countries by conducting a broad practical educational program based on international scientific research and professional experience.

This course will review the latest approaches to the treatment of coronary bifurcation lesions focusing on important theoretical, but mainly very practical topics in interventional therapy for coronary bifurcation stenoses.

The course will give a unique chance to the attendees to practice the techniques during specially dedicated "hands-on" sessions on special dedicated flexible coronary bifurcation models, guided by eminent experts from around the world. It will provide the opportunity to learn, interact, update and have hands-on training with in-depth review of the subject with the pioneers in the field. Leading experts from Europe and Asia will be available to have one to one interaction during the course.

The course will be held in English. There are only limited 100 seats for the course. Register fast to avoid disappointment.

For further information and registration please contact our partner:

Company for International Meetings (CIM) Ltd.

Contact person: Mrs. Denitza Yonkova

Tel: + 359 2 988 80 35, + 359 2 980 89 61

Fax: + 359 2 980 60 74

E-mail: denitza@cim.bg
