Dear Chairman, Dear friend,

You will find enclosed the preliminary program of the 8th International Symposium on Catheter Ablation Techniques (ISCAT) which will be held in Paris on the 13-15th October 2010. This meeting has received since the very beginning the sponsorship of EHRA.

The last symposium was more than successful with close to 1 000 participants. Since the last two editions the number of international participants has been growing up and we would like to go on and make this meeting more European.

We would like to ask for your help to relay the preliminary program to your members in order to make it known to many of our colleagues.

Thanks again for your help.

We hope to see you in Paris next October.

Etienne Aliot
