

# Expert Opinion Journals

See inside for details on how to  
request your complimentary trial...

Dear Customer,

At Informa Healthcare, our goal is to meet our customers' needs for fast access to high-quality, high-impact scientific research.

### Connecting with Customers

Whether you are a researcher, clinician, or librarian, we deliver key content through our robust online platform allowing you to access information quickly and leading you to discover related research. If you are a librarian or information specialist, we are committed to assisting you with the tools required to help manage your resources. We are dedicated to discovering better and more innovative ways to deliver content or tools that enhance your experience as a user or manager of our information.

### Aligning Online Content

No matter what your role is within Healthcare Sciences, we can align our content with your information needs. Our products range from niche journals to online books and major reference works that cover subjects from drug discovery to the latest clinical protocols.

### Publishing Principles

Our dedicated in-house staff, editorial board members and authors work in collaboration to publish content that is rigorously peer-reviewed and ethically sound. Our reputation as a publisher depends upon it.

We are looking forward to providing innovative solutions for you in 2011 and beyond!

Sincerely,

Phil Garner  
Divisional Managing Director

P.S. Take a look at the journals in this brochure to find out if you would like to take out a subscription - or visit us at **[informahealthcare.com](http://informahealthcare.com)** to qualify for our trial offer

## Expert Opinion Journals from Informa Healthcare

The **Expert Opinion** series of journals provide systematic and authoritative analysis to support every stage in the pharmaceutical pipeline. With 11 internationally peer-reviewed journals, we cover the full spectrum of drug development and application.

### 11 phase-specific journals:

- Expert Opinion on Biological Therapy
- Expert Opinion on Drug Delivery
- Expert Opinion on Drug Discovery
- Expert Opinion on Drug Metabolism & Toxicology
- Expert Opinion on Drug Safety
- Expert Opinion on Emerging Drugs
- Expert Opinion on Investigational Drugs
- Expert Opinion on Medical Diagnostics
- Expert Opinion on Pharmacotherapy
- Expert Opinion on Therapeutic Patents
- Expert Opinion on Therapeutic Targets

Our expertly crafted review articles enable the pharmaceutical R&D community to access and track the key advances that lead to the creation of new drugs.

### What makes us really stand out...

Unusually for research publishing, each paper published in **Expert Opinion** concludes not with the “Conclusion” but with an “Expert Opinion”. This is where our authors, all internationally recognised experts in their field and key opinion leaders within the industry, give their own personal view. They put their knowledge, expertise and experience to the test, stating where the research is now, where it should go next, and how it should get there.

And, because we recognise that there are two sides to every argument, reader feedback is always welcome.

To request your free 30-day trial visit: [informahealthcare.com/eotrial](https://informahealthcare.com/eotrial)

## Expert Opinion on Investigational Drugs

Editor-in-Chief:

**Dimitri Mikhailidis** – The Royal Free Hospital, London, UK

*Expert Opinion on Investigational Drugs* is a MEDLINE-indexed, peer-reviewed, international journal publishing review articles and original papers on drugs in preclinical and early stage clinical development, covering **all therapy areas**.

Each issue contains:

- Reviews covering preclinical through to Phase II data on drugs or drug classes for specific indications, and their potential impact on future treatment strategies
- Original research papers reporting the results of clinical investigations on agents that are in Phase I and II clinical trials
- Drug Evaluations profiling the clinical and pharmacological data on a particular drug
- Clinical Trial Evaluations providing balanced and contextualised overviews of a pivotal trial
- Key Paper Evaluations
- Meeting Highlights
- Editorials

Each article is structured to incorporate the author's own expertise and opinion on the subject, providing valuable insight into the scope for future development.

**Volume: 20, 12 issues a year**

**Online ISSN:** 1744-7658 • **Print ISSN:** 1354-3784  
[informahealthcare.com/eid](http://informahealthcare.com/eid)

2009  
Impact Factor  
4.218!\*

## Expert Opinion on Therapeutic Targets

Editor-in-Chief:

**Dimitri Mikhailidis** – The Royal Free Hospital, London, UK

*Expert Opinion on Therapeutic Targets* is a MEDLINE-indexed, peer-reviewed, international journal publishing review articles and original papers on recently identified novel molecular drug targets across **all therapy areas**.

Each issue contains:

- Reviews covering novel disease targets at the molecular level and their implications on future drug development
- Original research papers reporting results of target selection and validation studies and basic mechanism of action studies for investigative and marketed drugs
- Technology Evaluations reviewing a particular technology used in target identification/validation
- Key Paper Evaluations
- Meeting Highlights
- Editorials

Each article is structured to incorporate the author's own expertise and opinion on the subject, providing valuable insight into the scope for future development and impact on drug discovery.

**Volume: 15, 12 issues a year**

**Online ISSN:** 1744-7631 • **Print ISSN:** 1472-8222  
[informahealthcare.com/ett](http://informahealthcare.com/ett)

2009  
Impact Factor  
3.713!\*

Includes  
Full Archive

## Expert Opinion on Drug Delivery

*Expert Opinion on Drug Delivery* is a MEDLINE-indexed, peer-reviewed, international journal publishing review articles covering all aspects of drug delivery research.

Each issue contains:

- Reviews covering
  - delivery technologies, vehicles and devices
  - novel formulations
  - the delivery of specific drug and therapeutic classes
  - gene/vaccine delivery strategies
  - modes of entry into the body and applications in certain diseases and disorders
- Technology Evaluations reviewing a particular drug delivery technology
- Meeting Highlights
- Editorials

Each article is structured to incorporate the author's own expertise and opinion on the subject, providing valuable insight into the scope for future development.

**Volume: 8, 12 issues a year**

**Online ISSN: 1744-7593 • Print ISSN: 1742-5247**  
[informahealthcare.com/edd](http://informahealthcare.com/edd)

## Expert Opinion on Biological Therapy

Editor-in-Chief:

**Michael Morse** – Duke University Medical Center, North Carolina, USA

*Expert Opinion on Biological Therapy* is a MEDLINE-indexed, peer-reviewed international journal publishing review articles and original papers on all aspects of biological therapy.

Each issue contains:

- Reviews covering gene therapy; therapeutic peptides and proteins; vaccines and antibodies; cell and tissue-based therapies
- Original research papers reporting the results of clinical investigations on biological agents
- Drug Evaluations reviewing the clinical data on a particular biological agent
- Clinical Trial Evaluations providing balanced and contextualised overviews of a pivotal trial
- Meeting Highlights
- Editorials

Each article is structured to incorporate the author's own expertise and opinion on the subject, providing valuable insight into the scope for future development.

**Volume: 11, 12 issues a year**

**Online ISSN: 1744-7682 • Print ISSN: 1471-2598**  
[informahealthcare.com/ebt](http://informahealthcare.com/ebt)

Impact Factor  
3.215!\***

**Includes  
Full Archive**

## Expert Opinion on Drug Metabolism & Toxicology

**Expert Opinion on Drug Metabolism & Toxicology** is a MEDLINE-indexed, peer-reviewed, international journal publishing review articles on all aspects of ADME-Tox.

Each issue contains:

- Reviews covering
  - metabolic, pharmacokinetic and toxicological issues relating to specific drugs, drug classes or their use in specific populations
  - issues relating to enzymes involved in the metabolism, disposition and excretion of drugs
  - techniques involved in the study of drug metabolism and toxicology
- Drug Evaluations reviewing the clinical, toxicological and pharmacokinetic data on a particular drug
- Technology Evaluations reviewing a particular technology involved in obtaining ADME-Tox data
- Meeting Highlights
- Editorials

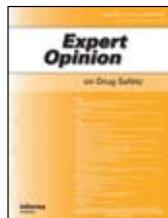

Each article is structured to incorporate the author's own expertise and opinion on the subject, providing valuable insight into the scope for future development.

**Volume: 7, 12 issues a year**

**Online ISSN: 1744-7607 • Print ISSN: 1742-5255**  
[informahealthcare.com/emt](http://informahealthcare.com/emt)

**2009  
Impact Factor  
3.076!\***

**Includes  
Full Archive**

## Expert Opinion on Drug Safety

Editor-in-Chief:

**Roger McIntyre** – University of Toronto, Toronto, Canada

**Expert Opinion on Drug Safety** is a MEDLINE-indexed, peer-reviewed, international journal publishing review articles and original papers on all aspects of drug safety.

Each issue contains:

- Reviews covering occurrence, management and prevention of drug-associated adverse events; risk-benefit analyses of individual drugs and drug classes; safety in 'at risk' patient populations; comparative tolerability studies; pharmacovigilance and pharmacoepidemiological studies
- Original research papers reporting the results of post-marketing surveillance and other safety studies looking at specific drugs, populations and outcomes; methods for the detection and evaluation of drug-associated adverse events
- Drug Safety Evaluations profiling the safety data on a particular drug
- Meeting Highlights
- Editorials

Each article is structured to incorporate the author's own expertise and opinion on the subject, providing valuable insight into the scope for future development.

**Volume: 10, 6 issues a year**

**Online ISSN: 1744-764X • Print ISSN: 1474-0338**  
[informahealthcare.com/eds](http://informahealthcare.com/eds)

**2009  
Impact Factor  
2.496!\***

**Includes  
Full Archive**

## Expert Opinion on Emerging Drugs

**Expert Opinion on Emerging Drugs** is a MEDLINE-indexed, peer-reviewed, international journal publishing structured reviews on drugs/drug classes emerging onto the market across **all therapy areas**.

Each review article is structured to include:

- Concise background to the subject matter
- Assessment of medical need for alternative or novel therapies
- Assessment of the market and anticipated changes over time
- Summary of current research goals
- Outline of the scientific rationale for the approach(es) considered
- Analysis of the competitive environment
- Discussion of potential development issues
- The author's expert opinion on the potential impact emerging therapies will have on the current management of specific diseases

With its structured report format of articles, this is an indispensable resource for pharma and healthcare division markets.

**Volume: 16, 4 issues a year**

**Online ISSN: 1744-7623 • Print ISSN: 1472-8214**  
[informahealthcare.com/emd](http://informahealthcare.com/emd)

## Expert Opinion on Pharmacotherapy

Editor-in-Chief:

**Dimitri Mikhailidis** – The Royal Free Hospital, London, UK

**Expert Opinion on Pharmacotherapy** is a MEDLINE-indexed, peer-reviewed, international journal publishing review articles and original papers on newly approved/near to launch compounds, covering **all therapy areas**.

Each issue contains:

- Reviews covering new drugs/drug classes, from Phase III to those that have been marketed for up to 5 years, and their potential impact on future treatment strategies
- Original research papers reporting the results of clinical investigations on agents that are in Phase III and IV clinical trials and studies with a strong link to clinical practice
- Drug Evaluations reviewing the clinical and pharmacological data on a particular drug
- Clinical Trial Evaluations providing balanced and contextualised overviews of a pivotal trial
- Key Paper Evaluations
- Meeting Highlights
- Editorials

Each article is structured to incorporate the author's own expertise and opinion on the subject.

**Volume: 12, 18 issues a year**

**Online ISSN: 1744-7666 • Print ISSN: 1465-6566**  
[informahealthcare.com/eop](http://informahealthcare.com/eop)

## Expert Opinion on Therapeutic Patents

*Expert Opinion on Therapeutic Patents* is the leading international, MEDLINE-indexed, peer-reviewed journal for pharmaceutical patent information, across **all therapy areas**.

Each issue contains:

- Reviews covering
  - recently published patents on compounds or applications with therapeutic potential
  - patents with biotherapeutic potential
  - small-molecule agonists or antagonists with specific molecular targets
  - patenting trends in a particular therapeutic area
  - medicinal chemistry
- Patent Evaluations evaluating the aims and chemical and biological claims of individual patents
- Perspectives on issues relating to intellectual property
- Annotated patent selections highlighting inventions and innovative ideas deemed by relevant experts to be of potential importance
- Meeting Highlights
- Editorials

Each article is structured to incorporate the author's own expertise and opinion on the subject, providing valuable insight into the scope for future development.

**Volume: 21, 12 issues a year**  
**Online ISSN: 1744-7674 • Print ISSN: 1354-3776**  
[informahealthcare.com/etp](http://informahealthcare.com/etp)

## Expert Opinion on Drug Discovery

*Expert Opinion on Drug Discovery* is a peer-reviewed, international journal publishing review articles on novel technologies involved in the drug discovery process, from identification and validation of targets through to leads.

Each issue contains:

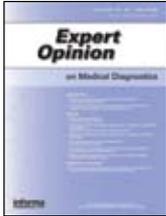

- Reviews covering areas such as chemoinformatics, bioinformatics, assay development, novel screening technologies, in vitro/in vivo models, structure-based drug design, systems biology
- Drug Discovery Case Histories reviewing the steps involved in the preclinical and clinical development of a particular drug
- Technology Evaluations reviewing a particular technology involved in lead identification/validation
- Perspectives on topical issues with potential impact on the future of drug discovery
- Meeting Highlights
- Editorials

Each article is structured to incorporate the author's own expertise and opinion on the subject, providing valuable insight into the scope for future development.

**Volume: 6, 12 issues a year**  
**Online ISSN: 1746-045X • Print ISSN: 1746-0441**  
[informahealthcare.com/edc](http://informahealthcare.com/edc)

**Includes Full Archive**

**2009 Impact Factor 1.280!\***

## Expert Opinion on Medical Diagnostics

*Expert Opinion on Medical Diagnostics* is a peer-reviewed, international journal publishing review articles covering all aspects of medical diagnostics not only for early disease diagnosis, but also for therapy selection, patient recruitment into clinical trials, predicting predisposition to disease and providing valuable information for the design of new treatments.

Includes Full Archive

Each issue contains:

- Reviews covering diagnostic tools for a specific disease, companion diagnostics, diagnostic and prognostic markers, imaging techniques relating to diagnostics
- Diagnostic Evaluations reviewing a specific diagnostic or diagnostic technique
- Diagnostic Patent Evaluations evaluating the aims and biological claims of individual patents
- Meeting Highlights
- Editorials

Each article is structured to incorporate the author's own expertise and opinion on the subject, providing valuable insight into the scope for future development.

**Volume: 5, 6 issues a year**  
**Online ISSN: 1753-0067 • Print ISSN: 1753-0059**
