

Dear Artist,

We offer Music Promotion services To Radio And Music Industry in Bulgaria.

We put your music on a CD and then send the CDs to radio DJs and music industry representatives! The CD featuring your music is mailed out to 500 interested Bulgarian radio stations and other Bulgarian music industry members. We also include a brief description about you and your music on the "Band / Artist Description Sheet".

If you don't have a CD cover - we will design it for you free. If you have - just zip it with your music, and send it to us.

This is a good deal for independent musicians, bands, etc. We offer 500 piece cd duplication deal that includes 500 full color discs packaged in Propack sleeves, just 1 euro each. All you have to pay is 500 Euro, or it will be free for you if you accept our logo (Stereofon) and url (www.stereofon.com) to be printed on CD cover also, as your CD promoter.

That makes even an EP promo release a potential image maker, also an inexpensive for you way to spread a demo to professional industry members.

Get your music sent to Bulgarian radio DJs, magazine Writers, film & T.V. producers, and A&R staff from record companies.

While our main focus is getting new independent music to radio DJs, we touch on many other areas of promotion.

This is done to make the best use of the music CDs we organize and help you reach even more listeners.

Atanas Kumanov
