Herb-users around the world have been singing the praises of Stevia for centuries! This unique extract, known as "sweet leaf" by its fans, mixes easily into hot and cold beverages, as well as all of your favorite recipes. It tastes great, has zero calories and is 100% natural! A natural liquid sweetener that is convenient with no more worries about packets spilling in your purse or pockets.

Stevia Cafran an article titled: "How Stevia Can Make Diabetes a Thing of the Past". The key word being healthy. Dr. Howenstein notes how any sugar substitute made in a factory [he specifically notes Nutrasweet (aspartame), Sucralose, and Splenda] is dangerous to health. Many of these contain chlorine. The best safe sweetening substance appears to be the natural substance stevia. Several of the glycosides in stevia have blood sugar lowering capability.
